Professional Summary

Driven and metrics-oriented lead generation specialist with proven experience building B2B outbound systems from scratch. Skilled in prospecting, personalized email outreach, and AI-powered campaign sequencing. Adept at navigating CRM tools (HubSpot) and data extraction to effectively engage C-Level decision-makers and drive qualified customer meetings. Highly coachable and eager to develop advanced closing skills in a high-growth tech environment.

Experience

Founder & Lead Generation Specialist — CLG Project

Jul 2025 – Present | Independent practice, remote

- Built and ran an end-to-end outbound system—including prospect sourcing, list enrichment, campaign sequencing, and inbox infrastructure—with no team or budget support.
 - Sourced and qualified 500+ B2B prospects using structured ICP criteria and data-scraping workflows, segmenting them for highly targeted outreach.
 - Wrote and A/B tested cold email sequences using AI copywriting tools, continuously iterating on subject lines and CTAs to improve reply rates and facilitate new relationships.
 - Engaged US decision-makers and C-level executives, generating a consistent 5–10 qualified leads per week and converting outreach into 3 discovery meetings.
 - Set up and maintained sender domain health (SPF, DKIM, DMARC) and mailbox warm-ups to protect email deliverability.
 - Conducted pre-meeting research to understand prospect pain points (e.g., e-commerce conversion friction) and effectively bridge the gap between their challenges and partner solutions.
