Professional Summary

Highly entrepreneurial B2B Sales & Growth Specialist with hands-on experience building automated, AI-driven outbound engines from scratch. Proven ability to design go-to-market strategies, scrape targeted prospect lists, and execute high-converting Email and LinkedIn sequences. A true system builder who leverages Make.com, Python, and AI (Claude, Antigravity CLI) to turn manual outreach into a repeatable, scalable machine. Fluent in English and Spanish, with direct experience engaging US and EU decision-makers.

Experience

Founder & Lead Generation Specialist — CLG Project

Jul 2025 – Present | Independent practice, remote.

- Acted as a true owner and system builder, designing an end-to-end B2B outbound engine from scratch with zero reliance on existing playbooks.
 - Leveraged workflow automation (Make.com) and Python-based data extraction to build custom target lists, sourcing and qualifying 500+ B2B decision-makers.
 - Operated as an AI-native practitioner, utilizing Claude and Antigravity CLI to write, personalize, and A/B test cold sequences across Email and LinkedIn.
 - Took full ownership of the pipeline, converting cold digital outreach into a consistent 5–10 qualified leads per week and 3 booked discovery meetings with US executives.
 - Architected the technical foundation of the sales machine, tracking all KPIs in CRM platforms (Apollo.io, Salesforce) and setting up strict sender domain health (SPF, DKIM, DMARC) for scalable volume.
 - Constantly sought feedback on campaign metrics, iterating on messaging and outreach cadence to optimize open and reply rates.
