To: Andrejs Poikans / Hiring Team

Company: AP Digital Media OÜ (Blinq)

Role: Founding Sales Associate

Dear Andrejs Poikans,

I am writing to apply for the Founding Sales Associate position at Blinq. Your philosophy of starting natural, peer-to-peer conversations rather than sending spammy sales pitches directly mirrors the approach I take in my own outbound campaigns within the e-commerce space.

Through my independent lead generation practice (CLG Project), I exclusively target Shopify and e-commerce stores. Rather than relying on aggressive pitches, I analyze these stores for conversion and revenue issues—like checkout friction or mobile page speed—and use those precise observations to open highly relevant conversations. By writing and A/B testing my own outreach sequences, tracking every detail in CRM platforms like HubSpot, and letting conversations flow naturally, I successfully sourced over 500 B2B prospects. This framework allowed me to consistently generate 5–10 qualified leads per week and guide them into 3 booked discovery meetings with US decision-makers.

While my previous outbound systems primarily utilized Email and LinkedIn Sales Navigator rather than Instagram DMs, the underlying mechanics remain identical: reading the prospect, reacting quickly, and mirroring tone to secure pre-sold calls without sounding like a rep. I would welcome the opportunity to bring my e-commerce background and disciplined outreach process to Blinq.

Sincerely,

Daniil Kotelevets
