Professional Summary

Driven B2B Business Development Representative specializing in high-volume, AI-powered lead generation. Deeply technical with hands-on experience using modern AI and automation tools (Claude, Make.com, Antigravity CLI) to build scalable outbound pipelines. Highly motivated to apply this technical fluency to help traditional industries adopt Human+AI engagement solutions.

Experience

Founder & Lead Generation Specialist — CLG Project

Jul 2025 – Present | Independent practice, remote.

- Leveraged Agentic AI and LLM Tooling (Claude, Antigravity CLI) to write, personalize, and continuously A/B test cold outbound sequences across Email and LinkedIn.
 - Built custom data-scraping workflows using Python and Make.com to automate the identification of target B2B accounts and key decision-makers.
 - Sourced and qualified 500+ B2B prospects, ensuring all outreach campaigns were highly targeted and relevant to the prospect's specific operational needs.
 - Successfully generated a consistent pipeline of 5–10 qualified leads per week entirely through self-directed digital outreach.
 - Conducted initial qualification and converted outbound engagement into 3 booked discovery meetings with US executives.
 - Maintained strict data hygiene and managed the complete sales prospecting lifecycle using modern CRM platforms (Salesforce, Apollo.io, HubSpot).
 - Configured underlying outbound infrastructure (SPF, DKIM, DMARC) to guarantee deliverability and a highly professional brand presence.
