To: Hiring Team, Always Partners

Role: SDR / Business Development Representative – IT & Virtualización

Dear Hiring Team,

As an independent, Spain-based B2B Lead Generation Specialist with a strong technical background in Multimedia Engineering, I am writing to express my interest in joining Always Partners to generate qualified commercial opportunities for top-tier technology vendors.

Over the past year, I have operated my own B2B lead generation practice as an autonomous professional. Utilizing robust account research and CRM systems (HubSpot and Salesforce), I sourced and evaluated over 500 decision-makers. By designing highly personalized, data-driven digital outreach campaigns (Email and LinkedIn), I consistently generate 5–10 qualified leads (SQLs) per week and secure 3 discovery meetings weekly. I am highly disciplined in tracking pipeline metrics and ensuring that every opportunity passed to the commercial team is rigorously qualified based on need, timeline, and decision-maker authority.

While my outbound expertise is centered entirely on digital prospecting channels (Email/LinkedIn) rather than telephone outreach, my deep understanding of computing environments and IT infrastructure—gained through my engineering studies—allows me to confidently engage CIOs and IT Directors regarding cloud architecture, datacenter needs, and virtualization projects. I am based in Alicante, fully equipped to invoice as an independent contractor, and ready to commit to this stable, long-term project.

Sincerely,

Daniil Kotelevets
