To: Daniela Marreiros & Hiring Team

Company: Ayiming

Role: Sales Development Representative – UK Market

Dear Daniela Marreiros and the Hiring Team,

With over a year of hands-on B2B sales experience building outbound pipelines from scratch, I am very excited to apply for the Sales Development Representative role targeting the UK Market at Ayiming. I am drawn to your position as a global leader in professional services and consulting, and I am eager to bring my strong "hunter" mindset to your team.

Operating independently in a fully remote environment, I have successfully identified, prospected, and qualified over 500 B2B clients using structured ICP criteria. I have a proven track record of defining personalized outreach strategies that target senior executives, which consistently generated 5–10 qualified leads per week and converted into scheduled discovery meetings. Furthermore, I am highly proficient in managing and enriching data within Salesforce, ensuring accurate tracking and reporting of all pipeline activities.

Based in Spain with fluent English proficiency and full EU work authorization, I am highly comfortable operating across European timezones and can travel for monthly meetings as required. I would welcome the opportunity to discuss how my proactive prospecting skills can maximize sales opportunities for Ayiming in the UK.

Sincerely,

Daniil Kotelevets
