To: Artem Doroshenko, Founder & CEO, BBOX AI

Role: Business Development Representative

Dear Artem,

As a highly driven B2B Lead Generation Specialist based in the CET time zone, I am excited to apply for the BDR role at BBOX AI. The job post specifically requested a note about my experience finding B2B clients and starting conversations with them—here is how I do it.

Over the past year, I have independently built and run a B2B outbound practice (CLG Project). Without a team or budget, I sourced and verified 500+ prospects using LinkedIn Sales Navigator and Apollo.io. Through highly targeted, A/B-tested Email and LinkedIn campaigns, I managed to generate a consistent 5–10 qualified leads per week. By conducting thorough initial conversations, I successfully handed over 3 discovery meetings per week to my agency partners.

I manage my entire pipeline with extreme discipline in HubSpot and Salesforce, ensuring no follow-up is missed. While I focus my outbound strategy entirely on digital channels (Email/LinkedIn) rather than cold calling, my method consistently delivers highly qualified, deeply researched meetings—which aligns perfectly with your focus on "thoughtful research and genuine potential over the number of contacts."

I am fluent in English, Spanish, and native in Russian, and I would love the opportunity to bring my disciplined prospecting engine to BBOX AI to help you scale your global business messaging platform.

Sincerely,

Daniil Kotelevets
