To: Hiring Team

Company: Beacon National Agency

Role: Remote Customer Sales Representative

Dear Hiring Team,

As a highly self-motivated sales professional accustomed to working independently in a fully remote environment, I was immediately drawn to the 1099 Customer Sales Representative position at Beacon National Agency. My background is rooted in autonomous, performance-based work, making me an excellent fit for your scalable, commission-driven model.

Recently, I built and managed an independent lead generation practice from scratch. I am highly experienced in managing leads within CRM systems, tracking pipeline progress, and ensuring rigorous follow-up. While my previous focus involved generating my own leads outbound, the core mechanics of my success—maintaining absolute discipline, following structured systems, and conducting discovery meetings with US business owners via video—translate perfectly to presenting tailored solutions to warm, provided clients. I successfully managed a pipeline of over 500 prospects and secured discovery meetings where I presented clear, engaging value propositions.

I am highly coachable, fully comfortable working as an independent contractor, and ready to apply your proven training systems to achieve immediate results. I would welcome the opportunity to discuss how my strong communication skills and disciplined work ethic can drive growth for Beacon National Agency.

Sincerely,

Daniil Kotelevets
