---

## Professional Summary

B2B Business Development professional and BSc Multimedia Engineering student specializing in AI-driven prospecting and workflow automation. Built and scaled an independent lead generation practice, utilizing AI tools (Claude, ChatGPT) and automation platforms (Make.com, Python) to construct highly structured, end-to-end B2B outbound systems. Proven track record of identifying decision-makers, managing CRM pipelines (HubSpot), and generating consistent qualified meetings for B2B services. Fully fluent in Spanish and English.

---

## Experience

### Founder & Lead Generation Specialist — CLG Project

*Jul 2025 – Present | Independent practice, remote.*

- Built and ran an end-to-end outbound system from scratch — prospect sourcing, list enrichment, campaign sequencing, and inbox/domain infrastructure — with no team or budget support.
  - Sourced and qualified 500+ B2B prospects using structured ICP criteria and data-scraping workflows, then segmented them for targeted outreach.
  - Wrote and A/B tested cold email sequences using AI copywriting tools, iterating on subject lines and CTAs to improve open and reply rates.
  - Generated a consistent 5–10 qualified leads per week and converted outreach into 3 discovery meetings with US decision-makers.
  - Maintained accurate pipeline and lead interaction data using CRM tools (HubSpot).
  - Set up and maintained sender domain health (SPF, DKIM, DMARC) and mailbox warm-ups to protect deliverability across multiple sending domains.
- 

## Skills

- **Outbound & Sales:** B2B Lead Generation, Cold Outreach, Prospecting, Lead Qualification, A/B Testing, Email Deliverability
  - **Sales Tech & AI:** LinkedIn Sales Navigator, Apollo.io, Instantly.ai, HubSpot, ChatGPT (prompt engineering), Make.com (automation)
