To: Hiring Team

Company: Bradford Jacobs

Role: Business Development Representative - Remote

Dear Hiring Team,

As an international B2B contractor who operates across borders, I understand firsthand the immense value of Employer of Record (EOR) solutions and global payroll infrastructure. Your mission to help companies navigate international expansion resonates deeply with me, and I know how to sell that value to HR leaders and founders.

Running my own B2B lead generation practice (CLG Project), I operate exactly how your ideal BDR should. You explicitly stated you do not want someone who "simply sends a high volume of generic messages." Neither do I. I use advanced workflow automation (Make.com, Python) connected to AI models (Claude) and data providers (Apollo.io) to deeply research target accounts and craft hyper-personalized outreach sequences based on genuine expansion signals. This modern approach allows me to consistently book 5-10 highly qualified introductory meetings per week.

Regarding the outreach channels, I want to be fully transparent: my core conversion engine is highly targeted, AI-driven digital outbound (Email/LinkedIn) followed by rigorous discovery calls and targeted phone follow-ups. While I am comfortable picking up the phone to handle objections and qualify interest, my primary value is building a digital pipeline so precise that we don't need to rely on volume-based blind calling.

I am fully remote, self-motivated, and ready to hit your 6-month KPIs to progress into the Senior Business Manager role. I look forward to discussing how my skills align with Bradford Jacobs' growth plans.

Sincerely,

Daniil Kotelevets
