To: Hiring Team, BuzzTechMedia

Role: Remote Client Development Representative

Dear Hiring Team,

As a proactive Client Development Representative with direct experience connecting businesses with digital solutions, I was immediately drawn to this role at BuzzTechMedia. Operating as a fully remote B2B contractor, I have spent the last year helping professionals optimize their digital workloads—exactly the mission you are driving at BuzzTechMedia.

Through my independent lead generation practice, I built a highly organized outbound pipeline from scratch. Utilizing digital outreach tools like Apollo.io, Instantly.ai, and LinkedIn Sales Navigator, I systematically researched and identified over 500 potential clients. My approach focuses heavily on scalable digital outreach (Email and Social Media) combined with deep personalization, which allows me to generate a consistent 5-10 qualified leads per week.

Once a prospect engages, I manage the entire relationship within HubSpot, focusing on identifying their specific business friction and matching their needs with the appropriate digital service. While my core strength lies in leveraging automated digital outreach tools rather than traditional cold calling, this modern approach ensures that every interaction is tracked, measurable, and highly scalable.

I am highly self-driven, detail-oriented, and fully available to align with US business hours. I would welcome the opportunity to discuss how my disciplined use of CRM systems and digital outreach tools can help build long-term client relationships for BuzzTechMedia.

Sincerely,

Daniil Kotelevets
