Date: August 22, 2026

To: Hiring Team

Company: C&B Creative Partners LLC (Sisterhood Sleuths)

Role: B2B Sales & Business Development Representative

Dear Hiring Team,

As a proactive B2B lead generation specialist who excels at opening doors in the US market, I am incredibly excited to apply for this role.

Introduction & Relevant Experience: Over the past year, I built an independent B2B lead generation practice from scratch. Operating completely autonomously, I specialize in researching target accounts and initiating cold outreach via LinkedIn and email. I am highly organized within CRMs like Salesforce and HubSpot, and I am driven by creating opportunities rather than waiting for leads to arrive.

Measurable Results Achieved: To date, I have systematically sourced and qualified over 500 B2B prospects. By combining rigorous A/B testing with persistent (but not pushy) follow-up, I have maintained an active pipeline that consistently generates 5–10 qualified leads per week, successfully securing discovery meetings with key decision-makers.

Approach to a new School, Library, or Retailer (Prompt Response): To approach a school or library that has never heard of Sisterhood Sleuths, I would first research the specific curriculum coordinator or head librarian to ensure hyper-personalized outreach. My initial email or LinkedIn message would focus entirely on our shared goal of driving youth engagement through reading, avoiding a purely transactional tone. I would offer a brief, low-friction digital preview of our books or programs, asking only for a brief introductory call to explore how our content aligns with their upcoming educational initiatives. By combining structured persistence with a value-driven focus, I would quickly build trust and move them toward a partnership.

I look forward to discussing how my outbound persistence can help Sisterhood Sleuths turn conversations into revenue.

Sincerely,

Daniil Kotelevets
