To: Cristina Zago & Hiring Team

Company: Canary Technologies

Role: Sales Development Representative (English Speaking)

Dear Cristina Zago and the Hiring Team,

As a motivated Lead Generation Specialist based here in Spain, I am incredibly excited to apply for the SDR position at Canary Technologies. I am drawn to your mission of revolutionizing the hospitality industry with modern software, and I bring the persistent outreach skills and professional English fluency required to accelerate your new customer acquisition.

Through my independent practice, I have successfully researched and qualified over 500 B2B prospects, consistently generating 5–10 qualified leads per week. I am highly accustomed to communicating value propositions to decision-makers and meticulously managing my pipeline in Salesforce. Furthermore, because I actively use AI tools like ChatGPT to craft and A/B test my own outreach sequences, I am deeply aligned with Canary's AI-forward approach and can confidently pitch your hospitality-specific AI platform to hoteliers.

My multi-lingual fluency (English, Spanish, Russian) and strong technical background enable me to adapt easily to new situations. I would welcome the opportunity to bring my grit and self-accountability to your team to help drive pipeline growth.

Sincerely,

Daniil Kotelevets
