Professional Summary

Results-driven B2B Sales Professional specializing in AI-powered SaaS lead generation and pipeline management. Expert in leveraging modern automation tools (Make.com, Claude, Antigravity CLI) to identify target accounts, execute high-volume outbound campaigns, and secure qualified meetings with decision-makers. Highly motivated to apply technical fluency in AI to drive growth and shape the go-to-market strategy for early-stage B2B software companies.

Experience

Founder & Lead Generation Specialist — CLG Project

Jul 2025 – Present | Independent practice, remote.

- Identified target B2B accounts and engaged prospects through high-volume outbound channels (Email and LinkedIn sequences), successfully generating 5–10 qualified leads per week.
- Leveraged Agentic AI and LLM Tooling (Claude, Antigravity CLI) to write, personalize, and continuously A/B test cold outreach messaging to improve conversion rates.
- Built custom data-scraping workflows using Python and Make.com to source and qualify 500+ prospects, ensuring strict adherence to Ideal Customer Profiles.
- Qualified prospects, managed initial objections, and successfully set up and converted outbound engagement into 3 discovery meetings with US executives.
- Maintained comprehensive CRM records using industry-standard tools (Salesforce, Apollo.io, HubSpot), meticulously tracking pipeline status, meeting notes, and follow-up tasks.
- Actively analyzed outreach performance and customer feedback to refine sales scripts, positioning, and overall go-to-market messaging.
- Configured foundational outbound infrastructure (SPF, DKIM, DMARC) to guarantee high email deliverability.
