To: Hiring Team

Company: CareerSet

Role: Account Executive (Europe Market)

Dear Hiring Team,

I am writing to apply for the Account Executive (Europe) position at CareerSet. Your mission to help students get hired and create a more level playing field resonates with me on two fronts: I know how to sell B2B solutions, and as an active university student myself, I intimately understand the higher education landscape and the exact pain points career centres face when trying to improve student employability.

Currently, I operate as an independent B2B contractor in Spain running my own lead generation agency (CLG Project). In this role, I manage the full sales cycle from start to finish. I carry out business development through LinkedIn and Email, conduct online discovery calls with business owners, lead negotiations, and close new customers. I am entirely comfortable managing deals independently and maintaining meticulous account plans in HubSpot.

While I am currently completing my Bachelor's degree rather than having already graduated, my hands-on entrepreneurial experience has given me a level of sales drive and closing ability that sets me apart. My dual perspective—as a driven B2B sales professional and a student navigating the modern job market—makes me uniquely qualified to sell CareerSet's value proposition to European universities.

Finally, I am fully set up to work remotely as an independent contractor from Spain and invoice CareerSet monthly, exactly as outlined in your job description.

I would love to arrange a call to discuss how I can help grow your European territory.

Sincerely,

Daniil Kotelevets
