Professional Summary

Results-driven Founding Business Development Representative specializing in AI-augmented outbound and automated pipeline generation for B2B SaaS. Expert in leveraging AI sales tools, Python data-scraping, and workflow automation (Make.com) to drive hyper-personalized outreach at scale. Highly technical and resourceful, with a proven ability to translate complex AI/LLM products into compelling messaging for technical and business buyers across European and US markets.

Experience

Founder & Lead Generation Specialist — CLG Project

Jul 2025 – Present | Independent practice, remote.

- Built an automated, AI-driven outbound engine from scratch, utilizing Python and Make.com to scrape target accounts, identify buying signals, and design scalable workflows for highly personalized B2B outreach.
 - Leveraged AI sales tools and LLMs (Claude) to improve account research, personalize email sequences, and increase outbound volume without sacrificing quality, generating 5–10 qualified leads per week.
 - Executed high-quality outbound campaigns across Email and LinkedIn Sales Navigator, engaging technical and business buyers to book discovery meetings directly with US executives.
 - Maintained disciplined CRM hygiene and pipeline management in Salesforce, HubSpot, and Apollo.io, continuously A/B testing messaging, subject lines, and cadences to optimize conversion rates.
 - Acted as a resourceful 'founding' commercial lead for an independent practice, building target-account strategies, improving outreach infrastructure (SPF, DKIM, DMARC), and turning complex value propositions into clear messaging.
 - Fed market insights, objections, and messaging learnings back into the campaign strategy to continuously refine the Ideal Customer Profile (ICP).
-
