To: Hiring Team

Company: Chestnut Health Company

Role: Business Development Representative

Dear Hiring Team,

I am highly motivated by Chestnut Health's mission to expand specialized Physical Medicine and Rehab services, and I am incredibly excited to apply for the remote Business Development Representative role.

Over the past year, I successfully built and operated an independent B2B lead generation practice from scratch. Working fully remotely, I extensively researched target markets to identify administrators and senior decision-makers, sourcing over 500 qualified prospects. By executing structured, high-volume outbound outreach, I consistently generated 5–10 qualified leads per week and scheduled discovery meetings for closing teams. As requested in your job description, I am highly proficient in maintaining detailed records of outreach, progress, and contacts using HubSpot CRM, ensuring that no opportunity for a service contract slips through the cracks.

While my business development background has primarily focused on B2B services rather than healthcare specifically, my ability to independently identify facility leadership and build professional relationships translates directly to your industry. Furthermore, although my historical success has been driven by strategic written outreach, my self-motivated, goal-oriented mindset means I am fully prepared and enthusiastic to execute proactive cold calling to healthcare facilities on a daily basis.

I would welcome the opportunity to discuss how my independent prospecting skills and HubSpot CRM expertise can help support contract finalization for Chestnut Health Company.

Sincerely,

Daniil Kotelevets
