To: Hiring Team, Chino.io

Role: Sales Development Representative

Dear Hiring Team,

When I read that Chino.io is looking for an SDR passionate about digital sales strategies, finding new ways of acquiring customers, and implementing process automation, I knew I had to apply. As an independent B2B Lead Generation Specialist, building automated, data-driven outbound pipelines is what I do every day.

Over the past year, I built an end-to-end outbound engine from scratch. Using tools like Apollo.io, LinkedIn Sales Navigator, and Make.com, I implemented process automations that allowed me to efficiently source and enrich over 500 decision-makers. By rigorously A/B testing my digital outreach campaigns (Email and LinkedIn), I consistently generated 5–10 qualified leads per week and secured 3 discovery meetings weekly. Furthermore, I am highly disciplined in keeping CRM data (HubSpot and Salesforce) completely up-to-date and continuously enriched.

While my current experience is entirely focused on executing proactive, outbound B2B campaigns rather than qualifying inbound leads, my technical background in Multimedia Engineering and deep expertise in digital sales automation make me highly capable of scaling your outreach in the complex health tech space. I am eager to collaborate with your Head of Sales to generate a high-volume, high-quality pipeline across the EU.

Sincerely,

Daniil Kotelevets
