Professional Summary

Tech-savvy Sales Development professional with a proven track record in B2B SaaS pipeline generation. Expert in leading discovery calls, objection handling, and managing rigorous CRM follow-ups to ensure high demo confirmation rates. Highly adaptable, independent, and disciplined self-starter, fully prepared to cover North American hours and apply strong qualification frameworks to inbound and trial-conversion environments.

Experience

Founder & Lead Generation Specialist — CLG Project

Jul 2025 – Present | Independent practice, remote.

- Managed end-to-end B2B pipeline generation, identifying target accounts and leading structured discovery calls to qualify needs and confirm software demos.
- Demonstrated strong objection-handling and demo confirmation discipline, consistently generating 5 to 10 highly qualified meetings per week for Account Executives and business owners.
- Maintained meticulous CRM hygiene (Salesforce, Apollo.io, HubSpot) to track prospect engagements, manage lead follow-ups, and ensure a smooth handoff process.
- Executed outreach through multiple digital channels (Email, LinkedIn), ensuring strict alignment with ideal customer profiles and messaging strategies.
- Operated independently in a fast-paced, fully remote environment, covering US timezones to engage effectively with North American B2B prospects.
- Continually refined sales processes and playbooks through A/B testing and data analysis to improve conversion rates and pipeline velocity.
