To: Hiring Team

Company: Connecteam

Role: Sales Development Representative (11-50 Users)

Dear Hiring Team,

I am writing to express my strong interest in the Sales Development Representative position at Connecteam. Your mission to provide real operators with the tools they need to run their deskless workforce—ditching messy spreadsheets in favor of intuitive tech—is incredibly compelling. As a tech-savvy B2B sales professional who currently runs an independent lead generation practice (CLG Project), I thrive in fast-paced environments that require strict CRM discipline and a drive to succeed.

Over the past 1.5 years, I have managed end-to-end pipeline generation, mastering the art of setting up discovery calls, objection handling, and ensuring rigorous demo confirmation discipline. By maintaining meticulous records in Salesforce and HubSpot, I consistently deliver 5-10 highly qualified meetings per week and ensure a smooth handoff process for Account Executives.

I understand this role is heavily focused on calling inbound leads who have signed up for a free Connecteam trial. While my professional background has been primarily focused on building high-volume *outbound* digital pipelines (rather than traditional inbound phone sales), the core mechanics of success are identical: rapid response times, persistent CRM follow-up, and strong qualification skills during discovery calls. I am highly adaptable, an incredibly fast learner, and fully prepared to work North American hours to support your AE team in driving pipeline growth.

Sincerely,

Daniil Kotelevets
