To: Sebestin, Business Growth, DS General Contractors N.V.

Role: Business Development Assistant

Dear Sebestin,

When I saw that DS General Contractors is seeking a part-time Business Development Assistant to conduct market research, identify potential customers, and maintain accurate CRM records, I knew my background was an excellent fit. As an independent B2B Lead Generation Specialist, I have spent the last year executing these exact tasks to drive growth for professional agencies.

In my current role, I conduct extensive market research to build highly targeted prospect lists, successfully identifying and qualifying over 500 commercial decision-makers. Notably, a significant portion of my prospecting has targeted the Home Services and commercial trades sectors, giving me valuable familiarity with your target audience. I manage all digital outreach (Email and LinkedIn), track every interaction meticulously within HubSpot and Salesforce, and handle prospect follow-ups to generate 5–10 qualified leads per week.

Currently pursuing my degree part-time, my schedule perfectly aligns with a remote, part-time commitment. My strong analytical skills, advanced proficiency with CRM platforms, and disciplined approach to maintaining accurate databases make me highly prepared to support your business development team. I look forward to the possibility of assisting your growth initiatives.

Sincerely,

Daniil Kotelevets
