To: Hiring Team, Destinus

Role: Junior Business Development Manager (Eastern Europe)

Dear Hiring Team,

I am writing to express my strong interest in the Junior Business Development Manager position for Eastern Europe at Destinus. With a native command of Russian, fluent English, and a proven track record of building data-driven B2B prospecting systems from the ground up, I am eager to support your commercial leadership in expanding your cutting-edge UAV solutions across the region.

Over the past year, I have run an independent B2B lead generation practice (CLG Project). By executing deep market research and leveraging tools like Apollo.io and LinkedIn Sales Navigator, I successfully sourced and qualified over 500 decision-makers. My rigorous, A/B-tested outbound approach consistently generated 5–10 qualified leads per week and secured 3 high-value discovery meetings weekly. I am highly disciplined in tracking all market interactions within HubSpot and Salesforce, ensuring a seamless handover to senior partners.

While my background is in digital B2B outreach rather than defense procurement, my current studies in Multimedia Engineering provide me with the analytical mindset necessary to grasp complex aerospace technologies. I am highly motivated, comfortable operating in fast-moving international environments, and fully prepared to travel across Eastern Europe as required to support customer engagement and market development.

Sincerely,

Daniil Kotelevets
