Professional Summary

Highly proactive and detail-oriented Business Development professional with strong expertise in conducting market research, identifying new business opportunities, and managing CRM systems. Possesses a deep understanding of digital agency services, having actively diagnosed e-commerce friction and connected brands with specialized web development and CRO agencies. Organized, articulate, and fully prepared to operate on EST hours to support Digital Silk's growth through rigorous opportunity qualification and proposal support.

Experience

Founder & Lead Generation Specialist — CLG Project

Jul 2025 – Present | Independent practice, remote

- Conducted extensive market research to identify new business opportunities across target sectors, operating independently to build and manage a robust sales pipeline.
 - Sourced and qualified 500+ B2B prospects, gathering critical market data to evaluate digital needs and budget capabilities before initiating outreach.
 - Specialized in the e-commerce vertical, identifying workflow friction and successfully acting as a bridge to connect brands with trusted web development and Conversion Rate Optimization (CRO) agencies.
 - Maintained strict organization and detail-oriented tracking of all prospect interactions, lead statuses, and follow-ups within CRM platforms (HubSpot and Salesforce).
 - Prepared data and actionable insights for decision-makers, successfully securing 3 discovery meetings with US business owners by presenting tailored solutions.
 - Managed end-to-end outbound communication via Email and LinkedIn, rigorously A/B testing messaging to optimize response rates and conversion metrics.
-
