To: Recruitment Director & CEO

Company: Digital Silk

Role: Business Development Associate

Dear Recruitment Team,

As a highly proactive and organized Business Development professional with a strong understanding of digital agency services, I was immediately drawn to the Business Development Associate position at Digital Silk. Operating an independent lead generation practice, I thrive in environments that require continuous self-betterment, meticulous market research, and a strategic approach to identifying new business opportunities.

Recently, my practice has focused heavily on the e-commerce sector, where I identified workflow and conversion friction within brands and successfully connected them with trusted web development and CRO agencies. This hands-on experience has given me a deep appreciation for how to identify digital needs, articulate the value of digital agency services, and coordinate discovery meetings with busy US decision-makers. Furthermore, I am highly organized and rely heavily on CRM systems (HubSpot, Salesforce) and presentation tools (PowerPoint, Word, Excel) to manage pipelines and present actionable insights.

I am highly coachable and eager to learn Digital Silk's methodology for pitching premium web design and branding services under your senior team. I am fully available and committed to working 8 AM to 5 PM EST from my home office in Spain. I look forward to discussing how my proactive research and pipeline management skills can contribute to Digital Silk's continued global growth.

Sincerely,

Daniil Kotelevets
