Professional Summary

Highly proactive Business Development Representative based in Spain with a proven track record of opening new advertiser relationships and building outbound pipelines from scratch. Expert in leveraging AI tools (Claude, ChatGPT) and automation (Make.com, Instantly.ai) to build highly targeted decision-maker lists, test personalized outreach messaging via Email and LinkedIn, and generate qualified conversations. Deeply experienced in managing opportunities within HubSpot and generating new business for digital agency services (Web Development & CRO).

Experience

Founder & Lead Generation Specialist — CLG Project

Jul 2025 – Present | Independent practice, remote

- Engineered an end-to-end B2B outbound pipeline from scratch, specifically focused on identifying friction within e-commerce brands and connecting them with specialized digital agency services (Web Development & CRO).
 - Built highly targeted decision-maker lists of 500+ prospects, utilizing LinkedIn Sales Navigator and Apollo.io to research target accounts and evaluate their current digital and acquisition strategies.
 - Designed, tested, and iterated outbound sequences (Email and LinkedIn), heavily utilizing AI tools (Claude, ChatGPT) and automation (Make.com) to generate hyper-personalized messaging based on prospect data.
 - Generated a consistent pipeline of 5–10 highly qualified leads per week, successfully securing discovery meetings with marketing and growth decision-makers.
 - Maintained a high level of CRM hygiene as a daily HubSpot user, tracking pipeline progression, A/B testing results, and commercial potential before handing over qualified leads to technical specialists.
 - Successfully utilized the language of digital acquisition (CPA, ROAS, LTV) to align agency solutions with the commercial objectives of target brands.
