To: Magdalena Iglesias & Hiring Team

Company: Fastrack (for Fintech Client)

Role: Sales Development Representative (SDR) - Fintech

Dear Magdalena,

As a proactive B2B Sales Development Representative based in Spain with a strong background in SaaS lead generation, I was immediately drawn to this SDR position for your Fintech client. Knowing that the company is placing a strong emphasis on technology, AI, and digital transformation for traditional firms, my hands-on experience building automated, AI-driven B2B pipelines makes me a perfect fit to help you scale during this critical growth phase.

In my recent practice, I built a complete outbound prospecting engine targeting decision-makers to solve their operational challenges. I heavily utilized automation tools like Make.com alongside AI platforms (Claude, ChatGPT) to deeply personalize outbound campaigns at scale, automate tedious HubSpot updates, and continuously refine my commercial messaging based on prospect feedback. This methodology allowed me to source over 500 prospects and consistently generate qualified meetings.

While my outbound approach focuses heavily on scalable digital channels (Email and LinkedIn) rather than traditional cold calling, my ability to clearly articulate a SaaS value proposition to traditional sectors—and smoothly hand over those qualified opportunities to Account Executives—is exactly what your team requires. I would welcome the opportunity to discuss how my AI-driven outreach strategies can generate highly qualified meetings for your Fintech solution.

Sincerely,

Daniil Kotelevets
