Date: October 1, 2026

To: Head of Sales / Hiring Team

Company: Guardian MPS

Role: Business Development Consultant

Dear Hiring Team,

I am writing to apply for the Business Development Consultant role at Guardian MPS. Your job description states a core truth of sales: the goal of outbound prospecting is not simply to make calls, but to create qualified sales opportunities. That exact philosophy drives my independent lead generation practice (CLG Project).

I built a highly automated B2B outbound engine from scratch to identify and engage decision-makers. By utilizing data-scraping workflows in Python, I researched and organized over 500 targeted prospects. I meticulously maintained all activity and opportunity information in Salesforce and Apollo.io, and successfully generated a consistent pipeline of 5–10 qualified leads per week, ultimately booking 3 discovery meetings with US executives.

While your posting emphasizes high-volume cold calling, my outbound methodology relies exclusively on structured digital channels (Email and LinkedIn). Rather than using a dialer, I automate target account research and A/B test messaging to generate predictable, qualified pipeline. I am confident that this data-driven digital approach can effectively uncover organizations with lone-worker safety needs and secure qualified meetings for your sales team.

Sincerely,

Daniil Kotelevets
