To: Luis Sosa

Role: Comercial B2B freelance – Automatización e Inteligencia Artificial

Dear Luis Sosa,

As an independent B2B lead generation specialist who shares your passion for digital transformation, I am incredibly excited to apply for this freelance commercial collaboration. Your model—flexible, remote, and based on results—is exactly how I currently operate my own practice in Spain, and I am highly motivated to help you develop your client portfolio.

You asked to briefly explain my commercial experience, the sectors I have worked in, and how I generate new business opportunities:

Over the past year, I built and managed an end-to-end outbound system from scratch, targeting B2B companies (primarily US-based Home Services and local businesses). To generate new opportunities, I systematically source and qualify potential clients using data-scraping workflows and structured ICP criteria. I then execute multi-channel digital outreach (Cold Email and LinkedIn) to open conversations, detect needs, and secure discovery meetings for technical experts to close. Furthermore, I actively leverage AI tools like ChatGPT for prompt engineering and Make.com for automation, enabling me to scale my outreach efficiently—a technical mindset that perfectly aligns with selling your automation solutions.

I am highly autonomous, strictly organized within professional CRMs (Salesforce, HubSpot), and I do not require a fixed schedule or exclusivity. Fluent in Spanish and English, I am ready to identify businesses that need process automation and hand them over to you for technical proposals and closing.

I would love to connect and discuss how we can grow together.

Sincerely,

Daniil Kotelevets
