Role: Business Development Representative (Independent Contractor)

Dear Benjamin Krikler,

As a proactive and independent lead generation specialist, I strongly believe in NuvelloWeb's mission to cut through agency bloat and deliver websites that function as true business tools. I am incredibly excited to apply for this Business Development Representative role, and I am highly motivated to introduce your approach to the right business owners.

Over the past year, I have built and operated an independent B2B lead generation practice from scratch. Working fully remotely, I am deeply accustomed to managing my own schedule and operating strictly on performance-driven, commission-based models. To date, I have sourced and qualified over 500 B2B prospects, utilizing the exact tools you require—LinkedIn Sales Navigator, email outreach platforms (Instantly.ai, Apollo.io), and CRMs (Salesforce, HubSpot)—to connect with decision-makers. By rigorously testing and refining my messaging, I have consistently scheduled qualified sales appointments. I am highly organized, meticulous about maintaining accurate follow-up records, and I thrive when I can manage my work independently to hit measurable outcomes.

While my pipeline generation has historically been driven by written outbound channels, I am a clear, confident communicator and am fully prepared to integrate cold calling into my outreach mix using your provided call frameworks. I am ready to leverage your case studies and direct mentorship to build lasting client relationships for NuvelloWeb.

I have submitted my application here, but I am also more than happy to connect directly via text to discuss how my outbound framework aligns with your business development objectives.

Warmly,

Daniil Kotelevets
