To: Juan Carlos Sánchez Tejada & Hiring Team

Company: OneClub

Role: SDR / Setter

Dear Juan Carlos Sánchez Tejada,

With a strong foundation in Inside Sales and B2B lead generation, I am very excited to apply for the remote SDR / Setter position at OneClub. I share your vision of driving business growth through the intelligent use of technology and digital transformation, and I am perfectly equipped to proactively contact leads and schedule qualified meetings for your sales team.

Over the past year, I have worked autonomously to build an end-to-end outbound prospecting system. Using digital prospecting platforms, I successfully sourced and qualified over 500 B2B prospects. By sending highly targeted messages and continuously optimizing my scripts, I generated a consistent 5–10 qualified leads per week and scheduled discovery meetings with key decision-makers. I am highly disciplined in managing prospect lists and ensuring that all information is meticulously updated in CRM tools like Salesforce and HubSpot.

I thrive in remote environments where autonomy, organization, and a proactive attitude are valued. My technical background in Multimedia Engineering ensures that I can quickly master new digital tools and contribute innovative ideas to improve the commercial strategy. Based in Spain and fluent in Spanish, I am ready to collaborate with your business development team to generate more sales opportunities for OneClub.

Sincerely,

Daniil Kotelevets
