To: Hiring Team

Company: Paladin Companies

Role: Business Development Representative

Dear Hiring Team,

As a highly self-directed B2B Lead Generation Specialist who built a net-new outbound pipeline from scratch targeting US decision-makers, I am excited to bring my resilient prospecting approach to Paladin Business. The high-activity, high-reward environment aligns perfectly with my track record of independent execution.

Operating entirely autonomously, I recently built an end-to-end outbound infrastructure and sourced 500+ B2B prospects. By rigorously A/B testing outreach and maintaining strict CRM workflows, I generated a consistent 5–10 qualified leads per week and secured 3 discovery meetings with US buyers. I am highly comfortable facing rejection, refining pitches, and relentlessly tracking my pipeline from initial contact to booked meetings.

Furthermore, noticing Paladin Companies' ventures into AI-powered platforms, I am eager to leverage my hands-on technical experience. I regularly configure AI-driven tools—such as Claude, ChatGPT, and Make.com—to scale outreach and automate workflows, which I believe can be an asset to your business development strategies.

I would welcome the opportunity to discuss how my outbound execution and technical adaptability can help Paladin Business connect more clients with critical tech savings.

Sincerely,

Daniil Kotelevets
