Company: Paladin Companies (Paladin Business)

Role: Business Development Representative

Dear Hiring Team,

As an independent B2B lead generation specialist who focuses specifically on targeting US-based companies, I am incredibly excited to apply for the remote Business Development Representative position. Your high-activity, high-reward commission structure is exactly how I operate my own independent practice, making me a perfect fit for this contract role.

Over the past year, I built an end-to-end outbound system from scratch to help B2B service providers secure qualified discovery meetings. Operating entirely autonomously, I successfully qualified over 500 US-based prospects and consistently generated 5–10 leads per week. I am a self-starter with strong follow-through, and I am highly organized when it comes to maintaining accurate records and managing my own pipeline in CRMs like Salesforce and HubSpot. Furthermore, I actively leverage AI tools like ChatGPT for prompt engineering and Make.com for automation, enabling me to scale my outreach efficiently—a technical mindset that perfectly aligns with a parent company managing AI-powered platforms.

While my pipeline generation has historically been driven by written outbound channels, I am a clear, confident communicator who does not mind rejection. I see every "no" as one step closer to a "yes," and I am eager to take full advantage of your cold call coaching and hands-on training with Orum and Zoho.

I would welcome the opportunity to discuss how my resilience and B2B prospecting framework can generate high-value meetings for Paladin Business.

Sincerely,

Daniil Kotelevets
