Professional Summary

Proactive Business Development Representative and remote independent contractor with direct experience selling website design, digital marketing, and Conversion Rate Optimization (CRO) services. Highly skilled in building outbound pipelines from scratch, identifying business friction, and following up consistently to secure qualified meetings and move prospects toward closing. Expert in using modern sales tech (Apollo.io, Instantly.ai, HubSpot) to generate new opportunities and eager to leverage performance-based compensation to drive revenue for Post Perfect.

Experience

Founder & Lead Generation Specialist — CLG Project

Jul 2025 – Present | Independent practice, remote

- Engineered and managed a dedicated B2B outbound pipeline, specifically focused on identifying friction within e-commerce brands and selling specialized digital agency services (Web Development & CRO).
 - Researched and identified over 500 target accounts, analyzing their current online presence, website design, and marketing setup to tailor outbound messaging.
 - Conducted highly consistent outbound prospecting via Email and LinkedIn using Apollo.io and Instantly.ai, generating 5–10 highly qualified leads per week.
 - Managed the full top-of-funnel pipeline independently, conducting introductory discovery conversations with business owners to determine their specific digital marketing and web design needs.
 - Provided relentless follow-up on generated leads and inquiries, utilizing CRM tools (HubSpot / Salesforce) to track lead statuses, activity, and next steps without requiring daily supervision.
 - Consistently evaluated prospect pain points to recommend the appropriate agency services, bridging the gap between initial interest and qualified proposals.
-
