To: Hiring Team

Company: Profesionaliza

Role: SDR Junior | Teletrabajo

Dear Hiring Team,

With a highly proactive attitude and a genuine hunger to learn real B2B sales, I am incredibly excited to apply for the SDR Junior role at Profesionaliza. Your offer of continuous training, professional CRM tools, and a clear career path is exactly the environment I am looking for to launch a long-term commercial career.

While the role does not require previous experience, I have already taken the initiative to build my own independent outbound system from scratch over the past year. I successfully sourced and qualified over 500 B2B prospects, generated 5–10 leads per week, and booked qualified discovery meetings with decision-makers. While my experience to date has focused on written outbound channels, I am extremely comfortable with rejection, highly extroverted, and fully prepared to pick up the phone, apply your optimized scripts, and generate interest through cold calling. I am also already highly proficient in managing pipelines within professional CRMs like Salesforce and HubSpot.

As a university student with a highly flexible schedule, the 20–26 hour part-time structure perfectly complements my studies. I am based in Spain with fluent Spanish proficiency, and I am ready to absorb your daily coaching and consistently hit performance targets.

Sincerely,

Daniil Kotelevets
