To: Hiring Team

Company: RealAdvisor

Role: Sales Development Representative (Freelance) - Mercado Español

Dear Hiring Team,

As an independent, results-oriented Lead Generation Specialist based in Spain with fluent Spanish proficiency, I am excited to apply for the Freelance SDR role targeting the Spanish market at RealAdvisor. I already operate under a freelance (autónomo) structure and am fully equipped to handle high-volume outbound prospecting in a fast-paced environment.

In my independent practice, I have sourced and qualified over 500 B2B prospects using structured criteria and data-scraping workflows. I consistently generated 5–10 qualified leads per week and converted this outreach into scheduled discovery meetings (demos) for decision-makers. To handle this high volume of outbound activity efficiently, I heavily leverage commercial automation tools like Make.com to streamline processes, and I strictly maintain an active, well-qualified pipeline using CRMs like HubSpot and Salesforce. Furthermore, I frequently use AI tools like ChatGPT to craft and A/B test outreach campaigns.

I am a highly resilient and communicative professional who thrives on hitting aggressive targets. I would welcome the opportunity to discuss how my proactive mindset and automation skills can help RealAdvisor scale in the European real estate sector.

Sincerely,

Daniil Kotelevets
