To: Hiring Team

Company: Rent a Recruiter

Role: Business Development Representative (Part-Time)

Dear Hiring Team,

As a Lead Generation Specialist who built a successful B2B outbound system from scratch, I am very excited to apply for the Part-Time Business Development Representative role at Rent a Recruiter. My current academic schedule and independent practice are highly flexible, making a 20-hour fully remote arrangement an ideal fit.

My professional focus has been strictly on prospecting and pipeline generation—identifying the right companies, starting conversations, and booking meetings for senior stakeholders. Working independently, I have sourced and qualified over 500 B2B prospects and consistently generated 5–10 qualified leads per week. By building targeted, personalized outreach campaigns through LinkedIn and cold email, and rigorously A/B testing my messaging, I successfully opened doors and converted cold outreach into discovery meetings with business owners.

While my primary experience has been selling consultative B2B services to the Home Services sector, the core mechanics of educating prospects and tracking activity to improve conversion rates translate perfectly to your Embedded Recruitment solutions. I am highly comfortable speaking directly with founders and senior leaders, and I would welcome the opportunity to generate high-quality pipeline for your senior team.

Sincerely,

Daniil Kotelevets
