To: Julian Van Haegenberg & Hiring Team

Company: ScaleFlow Consulting

Role: Remote Sales Agent (Commission Based)

Dear Julian Van Haegenberg,

As an independent Lead Generation Specialist who built an outbound prospecting system specifically targeting the Home Services industry, I am incredibly excited to apply for the Remote Sales Agent role at ScaleFlow Consulting. I immediately recognized the immense value your virtual receptionist solution provides to plumbers, electricians, and handymen, as these are the exact self-employed professionals I have been engaging with in my own practice.

Working entirely remotely and independently, I have successfully sourced and qualified over 500 B2B prospects within the Home Services sector. By executing structured data-scraping workflows and rigorously A/B testing my outreach sequences, I generated a consistent 5–10 qualified leads per week. I am highly accustomed to identifying pain points for these specific business owners and converting initial outreach into discovery meetings. Furthermore, I already operate as an independent professional, making me fully prepared to thrive in a performance-driven, commission-based structure.

I am fluent in English and Spanish, highly self-motivated, and ready to leverage your training and scripts to start closing deals. I would welcome the opportunity to discuss how my precise industry experience can help ScaleFlow grow.

Sincerely,

Daniil Kotelevets
