To: The Founder, Scalyncy.com

Company: Scalyncy.com

Role: B2B LinkedIn Outreach Specialist

Dear Founder,

As a highly technical B2B Customer Acquisition Specialist with deep experience in the AI, SaaS, and agency spaces, I was thrilled to see your posting for Scalyncy.com. I specialize in the exact stack you require (Apollo, Instantly, LinkedIn) and heavily utilize AI automation (Make.com, Claude) to personalize outbound sequences at scale.

Below is the requested information for my proposal:

1. Experience in B2B Lead Generation: I run an independent lead gen practice connecting European and US SME owners with digital services and web agencies. I consistently source 300-500 verified prospects monthly, utilizing automated sequences to book a steady 5-10 highly qualified discovery calls per month for my partners.

2. Tools used and list building process: I use **Apollo.io** and **LinkedIn Sales Navigator** to filter accounts (10-200 employees) and identify CEOs/COOs. I extract this data and route it through **Make.com**, utilizing **Claude/ChatGPT** to scrape their company websites and generate hyper-personalized icebreakers based on their current operational bottlenecks. Finally, I push the enriched leads into **Instantly.ai** and automated LinkedIn steps.

3. Sample cold email sequence: *Subject: Quick question about {{Company}}'s operational bottlenecks* Hi {{First Name}}, Noticed {{Company}} has been expanding over the last year. With that growth, many COOs I speak with struggle to keep their manual workflows from breaking under pressure. At Scalyncy, we build AI automations that eliminate manual tasks, saving teams 15+ hours a week. We recently helped a similar SME scale without adding headcount. Open to a quick 10-minute chat next week to see if this makes sense for you? (Follow-up 1, Day 4): Hi {{First Name}}, just floating this to the top of your inbox. Are manual operations a priority to solve this quarter? (Follow-up 2, Day 9): Hi {{First Name}}, looks like it might not be the best time. I'll check back next quarter, but feel free to reach out if AI automation becomes a priority.

4. Availability and rate: I am fully available for 10-15 hours/week. My rate is highly flexible depending on the base + bonus structure, typically targeting a base retainer of €600–€800/month for this volume + commissions for booked/converted calls.

I look forward to discussing how my automated outreach engine can scale your AI agency.

Sincerely,

Daniil Kotelevets
