To: Hiring Team

Company: Smartie Retail

Role: Setter Comercial B2B — Sistema de IA

Dear Hiring Team,

As an independent B2B lead generation specialist who focuses specifically on local service providers, I am incredibly excited to apply for the Remote B2B Setter position. I strongly believe in the value of your AI system for local businesses, and my background in identifying and qualifying business owners makes me an ideal fit for your target market.

Over the past year, I built an end-to-end outbound prospecting system targeting local B2B service providers, very similar to the clinics, workshops, and salons you target. I successfully qualified over 500 prospects and systematically booked discovery meetings with business owners. Furthermore, I actively leverage AI tools like ChatGPT for prompt engineering and Make.com for automation, enabling me to scale my outreach efficiently—a technical mindset that perfectly aligns with selling an AI-driven solution.

While my pipeline generation has historically been driven by written outbound channels, I am highly comfortable with rejection, possess strong communication skills, and am eager to transition my qualification framework into high-volume cold calling. Your live coaching and internal AI training system are exactly what I need to rapidly ramp up. Furthermore, because I already operate my own independent practice, I am fully equipped to handle a 100% variable structure (facturación como autónomo) and commit to stable commercial blocks each week.

I would welcome the opportunity to discuss how I can schedule high-quality demos for your closing team.

Sincerely,

Daniil Kotelevets
