**To:** Hiring Team

**Company:** Sonas Wedding Venue Software

**Role:** B2B SaaS Appointment Setter (IE)

---

Dear Hiring Team,

I am writing to apply for the part-time B2B SaaS Appointment Setter position at Sonas. Through my independent lead generation practice (CLG Project), I have developed a strong track record of working autonomously to identify target accounts, contact senior decision-makers, and consistently schedule qualified demo appointments. I am highly proficient in managing CRM pipelines and would love to bring this structured approach to the Sonas team.

I noticed the job description places a strong emphasis on phone-based cold calling to wedding venue owners. While my primary methodology for securing appointments relies on highly targeted, data-driven digital outreach (Email and LinkedIn) rather than traditional cold calling, my results are highly effective. I consistently generate 5–10 qualified leads per week and book demos directly with executives by delivering the right message to the right person at the right time.

I am highly comfortable speaking with directors during these engagements, and my CRM hygiene in platforms like Salesforce and HubSpot is exceptional. I am fully equipped with a professional remote setup and would welcome the opportunity to show you how my modern, digital-first approach to appointment setting can help Sonas quickly fill its demo calendar.

Sincerely,

**Daniil Kotelevets**
