To: Hiring Team, Sweet Robo

Role: Business Development Representative

Dear Hiring Team,

As a highly organized B2B Lead Generation specialist with a strong background in technical product environments, I was excited to see Sweet Robo's opening for a Business Development Representative. I specialize in identifying business owners, retail chains, and corporate decision-makers, and turning them into qualified appointments for the sales team.

In my current practice, I exclusively utilize Apollo.io and LinkedIn Sales Navigator to build highly targeted lists, introducing complex value propositions clearly and professionally. My expertise lies in maintaining consistent follow-up sequences and keeping lead information meticulously updated in CRMs like HubSpot and Salesforce.

While my outbound strategy relies exclusively on digital channels (Email and LinkedIn) rather than cold calling, my ability to break complex markets into actionable digital steps delivers highly predictable results. Through this digital-first execution, I consistently generate 5-10 qualified leads and secure 3 appointments per week for sales executives.

I operate from a quiet, professional home workspace with a fast, stable fiber internet connection and reliable backup power, making me fully equipped to work EST business hours. I would love to bring my disciplined pipeline generation skills to Sweet Robo.

Sincerely,

Daniil Kotelevets
