Professional Summary

Technically-driven BSc Multimedia Engineering student with practical experience in data-scraping workflows, identity resolution, and digital footprint analysis. While building an independent B2B pipeline practice, I developed hands-on fluency in extracting, verifying, and structuring public data to map organizational networks and locate key decision-makers. Highly disciplined, rigorous about data sourcing, and accustomed to producing actionable intelligence for commercial outreach.

Experience

Founder & Lead Generation Specialist — CLG Project

Jul 2025 – Present | Independent practice, remote.

- Sourced and qualified 500+ prospects using structured criteria and data-scraping workflows, actively resolving identities and contact networks across multiple channels.
 - Built and ran an end-to-end outbound system from scratch — prospect sourcing, list enrichment, campaign sequencing, and technical infrastructure — with no team support.
 - Segmented and mapped organizational networks (Shopify/e-commerce space) to identify operational friction points and trace decision-making structures.
 - Wrote and A/B tested outreach sequences using AI tooling, iterating on messaging to improve engagement rates.
 - Generated a consistent 5–10 qualified leads per week and converted outreach into 3 discovery meetings with US decision-makers.
 - Set up and maintained sender domain health (SPF, DKIM, DMARC) across multiple sending domains.
