To: Hiring Team

Company: Talentoma

Role: Remote Appointment Setter

Dear Hiring Team,

As a highly independent Appointment Setter with a track record of sourcing and qualifying US-based decision-makers, I was immediately drawn to the Remote Appointment Setter position at Talentoma. My background is rooted in self-directed, remote environments, making me an excellent fit for your fully remote team.

Operating an independent lead generation practice, I recently built an end-to-end appointment setting workflow from scratch. By strictly following structured communication criteria and diligently documenting all interactions in my CRM, I successfully sourced and qualified over 500 prospects. This systematic approach allowed me to generate a consistent 5–10 qualified leads per week and secure 3 discovery meetings with busy professionals. I excel in roles that require strong organization, consistent follow-through, and the ability to work independently to identify prospect interest.

While my outreach experience relies heavily on structured written communication (email and LinkedIn) rather than call center environments, the core skills of qualifying interest, handling objections, and confirming appointments remain identical. I would welcome the opportunity to discuss how my disciplined pipeline management and strong communication skills can contribute to Talentoma's growth.

Sincerely,

Daniil Kotelevets
