To: Hiring Team

Company: Talkdesk

Role: Sales Development Representative - DACH

Dear Hiring Team,

As a highly motivated B2B Lead Generation Specialist who built a successful outbound system from scratch, I am thrilled to apply for the Sales Development Representative role at Talkdesk. I am drawn to your mission of redefining the contact center industry through AI-first solutions, and I am eager to contribute my pipeline-building discipline to your incredible growth.

Through my independent practice, I successfully sourced and qualified over 500 B2B prospects, generating a consistent 5–10 qualified leads per week. I achieved this through daily, highly relevant outreach utilizing tools like LinkedIn Sales Navigator. To maximize my workflow efficiency, I heavily rely on AI tools like ChatGPT for crafting A/B tested email sequences and Make.com for automation, perfectly aligning with Talkdesk's focus on Customer Experience Automation. Furthermore, I am highly meticulous about maintaining data integrity and tracking all interactions within Salesforce.

I am an empathetic listener, fluent in English, and fully equipped to work remotely. I would welcome the opportunity to bring my tenacious, goal-oriented approach to your Sales Development Team and book qualified meetings for Talkdesk.

Sincerely,

Daniil Kotelevets
