To: Hiring Team

Company: Titanium Industrial Consultants

Role: Business Development Representative (BDR)

Dear Hiring Team,

As a highly self-motivated Lead Generation Specialist who operates an independent B2B practice, I was immediately drawn to the BDR opportunity at Titanium Industrial Consultants. Your focus on building relationships, qualifying operational challenges, and scheduling discovery meetings—without the pressure of closing—perfectly describes my daily workflow. I am highly comfortable operating as an independent contractor and acting as a brand's first commercial representative.

Recently, I built an end-to-end outbound pipeline from scratch, extensively using LinkedIn Sales Navigator and data-scraping tools to construct robust prospect databases. By prioritizing highly personalized email campaigns and LinkedIn networking, I successfully sourced and qualified over 500 B2B prospects. Maintaining meticulous CRM records to track follow-ups and pipeline progression, I generated 5–10 qualified leads per week and scheduled 3 discovery meetings with busy US business owners.

I am highly organized, comfortable speaking with executives, and driven by measurable results like appointment attendance and pipeline growth. I would welcome the opportunity to discuss how my systematic approach to building prospect databases and initiating outreach can help Titanium Industrial Consultants expand its market presence.

Sincerely,

Daniil Kotelevets
