Professional Summary

Data-driven B2B Business Development Representative with a proven track record of building sophisticated, AI-assisted outbound pipelines. Highly experienced in leveraging automation tools, data enrichment, and dynamic sequencing to identify decision-makers and generate highly qualified commercial opportunities. Combining hands-on experience in building scalable GTM infrastructure with a technical background in software/multimedia engineering to effectively engage CTOs, founders, and engineering leaders at UPPER.

Experience

Founder & Lead Generation Specialist — CLG Project

Jul 2025 – Present | Independent practice, remote

- Built and optimized an end-to-end B2B outbound engine targeting US-based companies from scratch, heavily relying on automated prospecting, enrichment, and outreach infrastructure.
 - Sourced and enriched 500+ B2B prospects using precise ICP criteria, Python data-scraping workflows, and intelligence platforms like Apollo.io and LinkedIn Sales Navigator.
 - Designed and continuously improved outbound campaigns (Email and LinkedIn) rather than executing predefined sequences, actively A/B testing subject lines and CTAs to drive engagement.
 - Integrated AI copywriting tools (ChatGPT/Claude) and Make.com automation to scale personalized messaging, directly turning automated signals into real commercial conversations.
 - Consistently generated 5–10 qualified leads per week and converted outbound efforts into 3 successful discovery meetings per week with senior decision-makers.
 - Evaluated prospect fit and buying context remotely, ensuring a high-quality handover of genuine commercial opportunities to partner digital agencies.
 - Maintained strict CRM hygiene (HubSpot/Salesforce) and managed sender domain health/warm-ups via Instantly.ai to guarantee optimal email deliverability.
