To: Hiring Team, WIN SOURCE

Role: Salesperson (International Sales Representative)

Dear Hiring Team,

As a highly driven B2B sales professional based in Spain, I was immediately drawn to this International Sales Representative role at WIN SOURCE. My background is rooted in B2B customer development and managing the full sales cycle, combined with a technical education (BSc in Multimedia Engineering) that uniquely positions me to quickly grasp complex supply chains, advanced electronics, and AI infrastructure markets.

For the past year, I have successfully operated an independent B2B lead generation and sales practice, where I identify business opportunities, conduct deep market research, and build lasting relationships with key decision-makers. I am deeply accustomed to supporting the entire sales process—from initial customer communication and RFQ handling to detailed quotation preparation and continuous follow-up. Using CRM tools like HubSpot and Salesforce, I maintain strict data hygiene to ensure opportunities are managed effectively throughout the sales cycle.

I understand that succeeding at WIN SOURCE goes beyond transactional sales; it requires a deep understanding of customer procurement needs, lead-time pressures, and supply continuity. My proactive outbound mindset, combined with my fluency in both English and Spanish, allows me to navigate these conversations confidently and deliver value-driven solutions across international markets.

I am eager to bring my strong commercial awareness and passion for international business development to your global team. I would welcome the opportunity to discuss how I can help strengthen WIN SOURCE's customer relationships and drive business growth in Spain and beyond.

Sincerely,

Daniil Kotelevets
