To: Catherine Liew & Hiring Team

Company: WIN SOURCE

Role: Sales Specialist

Dear Catherine Liew,

I am writing to express my strong interest in the Sales Specialist position at WIN SOURCE. As an early-career B2B sales professional managing my own lead generation practice (CLG Project), I have developed a deep expertise in identifying customers, organizing prospect lists, and initiating contact through digital channels. I am fully authorized to work in Spain and highly motivated to bring my outbound execution skills to the global electronic components supply chain.

In my current work, I utilize LinkedIn Sales Navigator and data-extraction tools to organize customer leads, followed by executing highly structured outreach via Email and LinkedIn. This methodical approach allows me to consistently generate 5–10 qualified leads per week. Furthermore, my strict dedication to CRM hygiene (using Salesforce and Apollo.io) ensures that all customer information, follow-up records, and active conversations are meticulously maintained and never fall through the cracks.

While my outbound methodology relies exclusively on structured digital channels (Email and LinkedIn) rather than traditional telephone outreach, and my background is not directly in electronic components, I am a fast learner with a technical foundation in Engineering. I am fluent in both English and Spanish, making me well-equipped to support your European customer development work. I am eager to learn the purchasing processes at WIN SOURCE and grow into a mature international sales professional.

Sincerely,

Daniil Kotelevets
