Professional Summary

B2B Sales Development professional and BSc Multimedia Engineering student with hands-on experience building AI-driven outbound systems. Highly proficient in utilizing sales technology (Salesforce, Apollo.io) and workflow automation (Make.com, Python) to source, qualify, and convert prospects. Deeply aligned with AI-native operational environments and fully fluent in both English and Spanish.

Experience

Founder & Lead Generation Specialist — CLG Project

Jul 2025 – Present | Independent practice, remote.

- Leveraged workflow automation (Make.com) and AI/Agentic Tooling (Claude, Antigravity CLI) to build and run an end-to-end outbound system from scratch.
 - Wrote and A/B tested cold email sequences using AI copywriting tools, iteratively improving open and reply rates without relying on a marketing budget.
 - Sourced and qualified 500+ B2B prospects using structured ICP criteria and data-scraping workflows, segmenting lists for highly targeted outreach.
 - Maintained accurate and up-to-date records of sales activities and client interactions using Salesforce and Apollo.io.
 - Generated a consistent 5–10 qualified leads per week and successfully converted outreach into 3 discovery meetings with US decision-makers.
 - Set up and maintained sender domain health (SPF, DKIM, DMARC) and mailbox warm-ups to protect deliverability across multiple sending domains.
-
