Professional Summary

Self-starting Client Executive and Lead Generation Specialist with a strong technical background in Engineering. Proven ability to drive consultative B2B sales, manage complex stakeholder relationships, and generate pipeline for advanced technology solutions. Expert in leveraging AI and automated workflows to research target accounts and execute personalized outreach. Highly proactive, commercially driven, and fully prepared to travel across Europe to expand market presence in the aviation and technology sectors.

Experience

Founder & Lead Generation Specialist — CLG Project

Jul 2025 – Present | Independent practice, remote.

- Led end-to-end B2B lead generation activities, identifying sales opportunities and booking discovery meetings directly with senior business executives.
 - Utilized modern AI tools and automated workflows (Make.com, Python) to research target accounts and run highly personalized digital outreach campaigns across EU and US markets.
 - Built and managed relationships with multiple stakeholders, conducting consultative discovery calls to advise clients on technical and operational solutions.
 - Maintained meticulously accurate records of all client interactions, prospect statuses, and sales opportunities using CRM software (Salesforce, HubSpot, Apollo.io).
 - Assisted in marketing activities by analyzing campaign performance, running A/B tests on outreach messaging, and continuously refining the ideal customer profile.
 - Operated fully remotely as a self-starter, consistently exceeding outbound KPIs and leveraging a deep understanding of AI-driven B2B environments.
-
